Bharath T J

+91 6360592938 bharathtj77@gmail.com bharath-t-j-788b47375 bharathtj77

Skills

- **Programming:** Python (**NumPy, Pandas, Matplotlib**)
- **Frontend:** HTML, CSS, React
- **Backend:** Node.js, Python
- **Database:** MySQL, MongoDB, PostgreSQL
- **Core:** DSA (Python)

Projects

PID Line-Following Robot *6 months*
Tech: IoT, Embedded C

- Designed and developed an autonomous line-following robot using a **PID control algorithm** for accurate path tracking.
- Integrated IR sensors with an Arduino-based control system and tuned PID parameters to improve movement stability and response.

KishanLink *24 hours*
Tech: HTML, CSS, Node.js, REST API, SQL, Power BI

- Developed a data-driven platform connecting farmers with market opportunities using **REST APIs, SQL, and Power BI**.
- Built a responsive frontend and backend workflow to manage agricultural data and generate actionable insights.

Experiences

- **Student Developer** – Currently building practical projects in **Data Science, Python, Web Development, and IoT**.

Achievements

- Secured qualification for **Smart India Hackathon (SIH) 2026**.
- Achieved **3-Star rating in Python** on HackerRank.

Education

B.E. in Computer Science (Data Science) *2025–2029*
Adichunchanagiri Institute of Technology (AIT), Chikkamagaluru, India
CGPA: 9.21/10
